

Electro Bear Guard LWC

Brought to you by Eagle Enterprises

The LWC (Lite Weight Compact) was developed for where the UltraLite is too small, but lightweight and compact is still an issue. It is 4 lbs and compact (18" L x 10" Diameter). The LWC will encompass up to a 40' x 40' area (1,600 sf) or smaller. The LWC utilizes the very latest technology like aluminum tube poles and the most compact fence Energizer available on the market. This Energizer produces a shock pulse that measures up to 9,500 volts (.15 joules).
