

Electro Bear Guard UltraLite

Brought to you by Eagle Enterprises

The UltraLite was developed for backpacking. It is Ultra Light weight (2.0 lbs with batteries) and very compact (18”L x 4” Diameter). The UltraLite will encompass up to a 20’ x 20’ area. The UltraLite utilizes the very latest technology like aluminum tube poles and the most compact fence Energizer available on the market. This Energizer produces a shock pulse that measures up to 9,500 volts (.15 joules).
